PSCB DEV Pro Subscription Information 2026-2027

New Pricing Structure – Effective 3/1/2026

PSCB Development is implementing a New Pricing structure beginning on 3/1/2026. This updated pricing plan will apply to all New and Renewal subscriptions.

The yearly subscription pricing plan is based on school district enrollment. Please update your profile information to reflect the enrollment level that applies to your district. (See instructions below for updating your account profile.)

New subscribers can purchase a one-year subscription at the current pricing until 3/1/2026. New subscriptions purchased after 3/1/2026 will use the pricing structure for the 2026-2027 school year. The subscriptions will be immediately activated for use during the remainder of the 2025-2026 school year and continue to the end of the 2026-2027 school year. The expiration date for these subscriptions will be 7/5/2027.

PSCB DEV Registered Users - Profile Update

PSCB is requiring all registered users to update their profile information by 2/15/2026.

As PSCB prepares for upcoming renewal invoices it is important that the primary contact and all other information is correct for each school district. An accounts payable email address and phone number are required. Renewal invoices will be sent to the listed accounts payable email.

Note: The accounts payable email should not be the same as the primary contact email.

Instructions for updating your account profile

Login to the PSCB DEV website.

Click the Account link under your name on the Home Page menu.

Click the Edit Profile link.

Review and edit you profile information.

Click Save Changes.

Note: If there are no changes it is important that you still click the Save Changes button. This will confirm that your profile was reviewed.

PSCB DEV Pro Custom Reports - Plugin Updates

Due to numerous recent enhancements, it is important that users keep their PSCB DEV report plugins up to date. To facilitate this process a Check for Custom Reports Plugin Updates page has been created.

Navigate to the following location in PowerSchool to view this page.

Click the System Management link in the left Navigation Menu of the Start Page.

Click on the PSCB DEV Pro Custom Reports Management link.

Click on the Check for Custom Reports Plugin Updates link.

Review the Plugins Version List to determine which plugins need to be updated.
